Writing an attachment report or internship report can seem like a very
tough job, at least from most people's point of view. However, just
like anything in this world, it is hard until you do it. An industrial
attachment report is simply that; a written account of the observation
and activities of the attachment.

The industrial attachment training is an essential component of the curriculum of Koforidua Polytechnic which is partial fulfillment of the requirements of the award of National Higher Diploma in Statistics, Students are required to undergo an industrial attachment programme during which the students are expected to acquire additional practical experience to supplement, their programme of study in the Polytechnic.

Nana Agyeman Duah JR.: INDUSTRIAL ATTACHMENT REPORT

In writing a full-length engineering report, you should start with a report outline, then proceed to a rough draft. The outline defines the organization of the report, and the rough draft serves to avoid omissions. Once the content is established, the rough draft is refined for clarity and conciseness.

ENGINEERING REPORT WRITING

The Attachment Day 1 here wasn't a walk in the park. After reporting to the station work started immediately. Since the station spans a great area, transport between the two major stations is hard to come by. Today I was stationed at Olkaria 2 - Engineering and Logistics Section where the actual drilling takes place.
